Project sanisim[®]

Several years of experience

What is SaniSim ?

SaniSim was created, and is used from a dozen of years, for sterilize the surgery rooms and medical environments
it can eliminate the 100% of Virus, Bacteria, Mushrooms, Molds, Spores and Protozoa and make the room total sterile
For many years we sold SaniSim only in hospital's ambient but now the time is mature for the opening of new markets.

TO WHOM CAN WE SELL SaniSim?

the new markets that we are looking for to open are basically divided in 3 main sectors. Civil, Food, Industry.

Every main sector is divided in several other sectors

AND WHY?

More and more often people are afraid of lung infections or pandemic.
A lot of people live with masks because they're afraid of bruises.
We can give them environments where they feel totally safe.

CIVIL

Subsectors: Hotel rooms, School canteens, Restaurants, Offices, Houses and Transport.

Hotel rooms. Purpose: Offer to upper class customers Suites and Penthouses with the emotional suggestion that the rooms are totally sterilized and totally safe for their health.

School canteens. Purpose: Give parents the certainty that even where their children are housed with hundreds other children for lunch, the environment is totally sanitised.

Restaurants. Purpose: Give to upper class customers a sanitised room where they can eat in a very clean and sanitised environment.

Offices. Purpose: to provide a safe environment for their employees and increase their trust at the company

Houses. Purpose: Give your family a home to live in a safe and totally sterilized environment. Families can activate SaniSim in the morning when they come out and, on their way, back they will find a house totally sterilized and perfect for their health

Transport. Purpose: the fast trains could offer at the first-class travellers a sanitized wagon

FOOD

Food. Purpose: to extend the shelf life of food products, to reduce waste. With A targeted and personalized protocol.

INDUSTRIES

Industries. Purpose: to provide a safe environment for such aspects to operators and quality productions

Everything that has been up here is only a small part of the market opportunities that can be taken in China.

We're talking about a new market with millions of potential customers

In our equipment, for sterilization of environments, you can only use original SaniSim products and this will create a huge and very profitable market

Who will take the exclusive sale of this product for China will surely be a person who will earn a lot.

Knowing the dimension of the Chinese territory and its complexity, we are willing to evaluate the possibility of assigning the exclusivity also for a province.

If you are interested to take this opportunity, please contact us as soon as possible because we are evaluating just now some possible solutions

For a bright future, be smart and join us
